THIS DOCUMENT ISSUED TO CoreTech Srl CAN BE PUBLISHED IN CURRENT YEAR'S SUSTAINABILITY REPORT

Test executed on: 14/01/2024

Rating valid until: 14/01/2025

(1) The Calculated CO₂e refers to the emissions generated by the page views of top 50 Desktop and Smartphone pages during the time range 01/07/23 - 31/12/23 then rescaled over 12 months. (API V3).

(2) CO₂ emitted per passenger. Source: Lufthansa Group Fact Sheet Sustainability 2021 (includes all routes and charter flights from gate to gate).

(3) Weighted average of the sample's emissions.

(4) CO₂ emitted per passenger. Source: European Environment Agency (CO₂ emissions are calculated as the weighted average emissions of all new passenger cars first registered in the EU in 2020).
